Letter of Reference

To whom it may concern:

Please allow this letter to serve as a letter of reference for New Living Construction for the work they have performed at Barry University, Miami Shore, FL.

New Living has successfully completed several renovation projects on our main campus. Most recently, New Living worked on a large scale renovation project that encompassed 48 rooms/bathrooms of student resident spaces, 2 roof replacements, fire alarm upgrade for 2 buildings and also touched each of the mechanical, electrical and plumbing trades within this project.

I have personally experienced that New Living has proven to be a responsible and reliable contractor that will get the job done regardless of any obstacle. Their team and group of subcontractors are very professional, efficient and dedicated to their work. More importantly, and a primary deciding factor for me with any contracted service is; competitive pricing, quality of workmanship and compliance with warranties/recalls and New Living Construction provides these key components.

If you have any question, please feel free to contact me.

Sincerely,

Alex MacNamara
Director of Facilities
Barry University
